Slicks Bomb Shop

Open in 2015 Slicks Bomb Shop was open for buisness in the City of Montclair Ephraim Santoscoy set forth to open a shop catered to the lowrider lifestyle Bombs 54 and Down was his speciality.

Born and Raised in east Los Angeles he tells me he was born in his grand parents home and lived all over the west coast finding his way growing up with older homies like homie DAGS that Owned a 1939 MASTER DELUXE and another homie named Knightowl from Westside 18th Street 1948 GERMIN HELMIT

I was 16 and thats when i got the itch to work on Chevy Bombs from OG Johnny from Azuza 46 Fleetline Black one of the best around and Weasel the Hunter for partshes been in the game his whole life the guy to go to for parts hands down...

Johnny for Azuza showed me how to hustle in the industry to make it happen. and his brothers and uncles his brother owned a body in upland and he worked with his brothers for 6 years. The Shop was called Lupes and Johnny in Rancho Cucamonga David and (John... OG John) Richard Mendez, Memo Ortego...

So Slick opened up shop in his garage literally. building and fixing cars it took off rat rods, bombs, and lowriders he was growing fast so he wanted a bigger shop...

i met Rey Ferrio a owner of a ford and he stoped in too a shop called early ford store and yesthe well know Photagrapher... he convinced me to open my own shop which is now Slicks Bomb Shop. had a few buisness partners... but never really didnt have much help and he had to start doingther mechanical work air rides customising trucks so i ask slick whats so special that keeps the shop going i seen alot of nice classics come out of the shop but what seperates you from other shopsall the work i do or build paint fabrication suspensions wiring... welding... i do it all... except epostery... hahaha... nice so what type of classics you like to build slick... Trucks and Fleetlines nieborhood style type 70s he adds his own twist to these classics... i just seen a truck you built a 1950 chevy 5 window short bed 3100 it was a olive green from a 2000 fiatand dropped mustang 2 and 4 link in rear from dannys original customs in montclair i get allmy suspension parts there all work is done at my shop...so Slick whats in the works now in your shop... project 1952 Chevy Deluxe Fleetline... Full Restoration...

In Loving Memory

Irene Ann Jeffers

08/03/69 - 08/24/18

We carry you in everything we do, your love, laughter and smile... wishing we could visit heaven for just a little while. The Hardest part was saying goodbye when you went away, No matter the fight you could not stay and we miss you every day. So many Oldie Sunday's have come and gone, and because of you they will carry on. So it's never goodbye, it's we'll see you again our beautiful soul untill we meet in heaven.
